

古典学年鉴（L'Année philologique）数据库：简介与使用

作者：景蓝天

L'Année philologique（古典学年鉴）是古希腊、罗马以及西方古典学各方面相关领域研究必不可少的工具。北大图书馆去年特意购置了这一数据库，以增强北大在相关领域的教学和研究。为了更好地服务于广大师生，我们这里对这一数据库的特点和使用做一个概述。

L'Année philologique 涵盖的内容非常全面。它不仅包括希腊语和拉丁语文学及语言学（其中包括早期基督教文本和基督教派）、古希腊和罗马的历史、艺术、考古、哲学、宗教、神话、音乐、科学等主要领域，也涵盖一些分支领域，如钱币学、纸莎文献学和金石学。同时，它详细地收录了多种语言的文献信息。其次，L'Année philologique 为我们提供各篇文献的详细信息，其中不仅有常规的出版信息，还有相关的古代文本、现代文本和书评信息（针对图书条目）等。最后，L'Année philologique 兼容 Endnote 等文献管理软件，可以一键导出大量文献信息，操作方便且高效。

L'Année philologique 最早由索邦大学的古典学家 Jules Marouzeau 创立，并由法国国际文献出版社出版。它从 1928 年开始以纸质刊物发行，第一卷年鉴涵盖了 1924 年-1926 年的古典学文献。现在，我们可以通过网络数据库查阅 1924 年以来的所有年鉴。

可见 L'Année philologique 确实是一个非常重要的研究工具~那么，下面我们来看一看它的基本操作方法吧。（以下 L'Année philologique 简称 Aph）

1. 从北京大学图书馆未名搜索-数据库导航-搜索“L'Année philologique”并进行访问

首先，我们从未名搜索左侧点击“数据库导航”，并输入 Aph，从搜索结果中找到

This is a screenshot of the L'Année philologique database page. At the top, there is a search bar with a "搜索" (Search) button. Below the search bar, the title "L'Année philologique--古典学文献年鉴" is displayed. Underneath the title, there are links for "已购买" (Purchased), "统计/研究数据" (Statistics/Research Data), "英文" (English), and "其他" (Other). On the right side, there is a "帮助文档" (Help Document) link and a link for "电子资源使用版权声明" (Electronic Resource Usage Copyright Statement). A red box highlights a link that says "访问地址: 请点击此处进行检索" (Access address: Click here to search). Below this, there is a "数据库介绍:" (Database Introduction) section. The introduction text states that L'Année philologique is published by the Societe Internationale de Bibliographie Classique and covers a wide range of disciplines including Greek and Latin literature and linguistics, history, art, archaeology, philosophy, religion, mythology, music, science, and numismatics. It also mentions that the database includes annual indexes and abstracts in multiple languages.

Aph，出现图中页面后点击访问地址进入 Aph。

2. 进入 Aph 主页面

This is a screenshot of the Aph (L'Année philologique) main page. At the top, there is a navigation bar with "All products" and language options: "EN", "FR", "DE", "ES", "IT". The main header features the "Aph" logo and the text "L'Année philologique Bibliography of the Classical World". Below the header, there is a search bar and a "Search" button. The main content area is divided into "Free search" and "Thematic search - general". The "Free search" section has input fields for "All fields" and "Author". The "Thematic search" section has a dropdown menu for "Discipline after vol. 67" set to "All Academic Disciplines" and an input field for "Ancient author and text". A "Search" button is located at the bottom right of the search area. On the right side, there is a box titled "Brepols bibliographies online survey" with a "Take this survey and win a book voucher" button. At the bottom, there is a footer with "Peking University Library (115.27.193.137)" and "Terms and conditions - 2019 © Brepols Publishers NV - All rights reserved".

All products: 这里列出了 Brepols 提供的所有资源，包括大量数据库、百科全书和字典等，我们可以访问北京大学图书馆购买的资源。

EN-FR-DE-ES-IT Aph 网站支持英法德西意五种语言设置，从北京大学图书馆进入后默认设置为英语。网站语言设置和搜索内容、结果没有关系。

3. Simple search 简单搜索

我们来简单介绍一下 Aph 的 Simple search。下面以 Aristotle on Vision 为主题举例。

首先，在 Free search 下第一个栏目：All Fields 中输入 “Aristotle”和“vision”。

The screenshot shows the Aph search interface. At the top, there are navigation links for 'Home', 'Help', and 'Logout'. Below that is the Aph logo and the text 'L'Année philologique Bibliography of the Classical World'. A search bar is visible with a 'Search' button. The main navigation bar includes 'Introduction', 'Search', 'Coverage', 'Search History', and 'My Email Alerts'. The 'Search' tab is active, and the 'Simple search' sub-tab is selected. The 'Free search' section has two input fields: 'All fields' containing 'Aristotle vision' and 'Author' which is empty. To the right of the 'All fields' field is a red box containing the number '26'. Below this is the 'Thematic search - general' section with two input fields: 'Discipline after vol. 67' set to 'All Academic Disciplines' and 'Ancient author and text' which is empty. At the bottom of the search area, there is a 'Clear fields' link, a red label 'Total number of hits' with a red box containing '26', and a 'Search' button. On the right side, there is a summary of records: 'Number of records: 1 374 281', including '860 124 article and book records' and '514 157 book review references'. There is also a video player titled 'Searching with wildcards'.

随即在 all fields 栏和 search 键旁边出现了两个数字，all fields 旁的数字这是数据库中符合搜索条件的结果数量，search 键旁的红色数字是符合筛选条件的所有结果数量。（由于现在我们没有附加筛选条件，两个数字是一样的。）在点击搜索之后，Aph 会给出所有在标题、摘要等全部信息中任意位置出现 Aristotle 和 vision 的结果。

1) 我们可以加上一些简单的筛选条件。

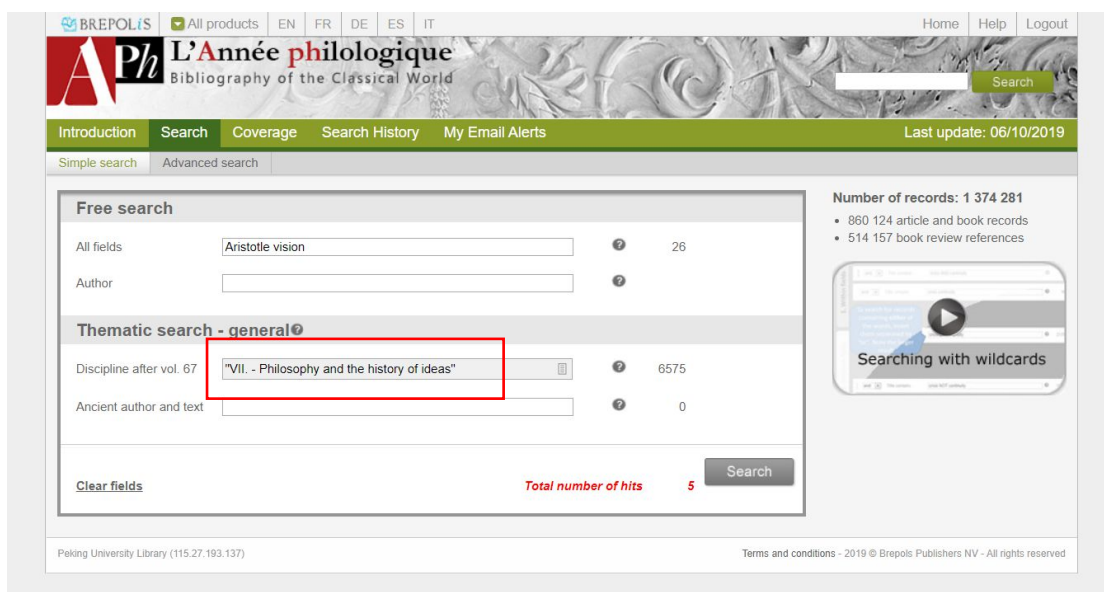

首先，我们可以筛选作者。比如，在 Author 栏目中输入 O'Brien, Denis，这一栏目

The screenshot shows the Aph search interface with the 'Author' field filled with 'O'Brien, Denis'. The 'All fields' field still contains 'Aristotle vision'. The number of results for 'All fields' is still '26', but the number for 'Author' is now '95', highlighted in a red box. The 'Total number of hits' at the bottom is now '2', also highlighted in a red box. The 'Search' button is visible. The right side of the interface shows the same record summary as the previous screenshot, but with a video player titled 'What is OpenURL?' instead of 'Searching with wildcards'.

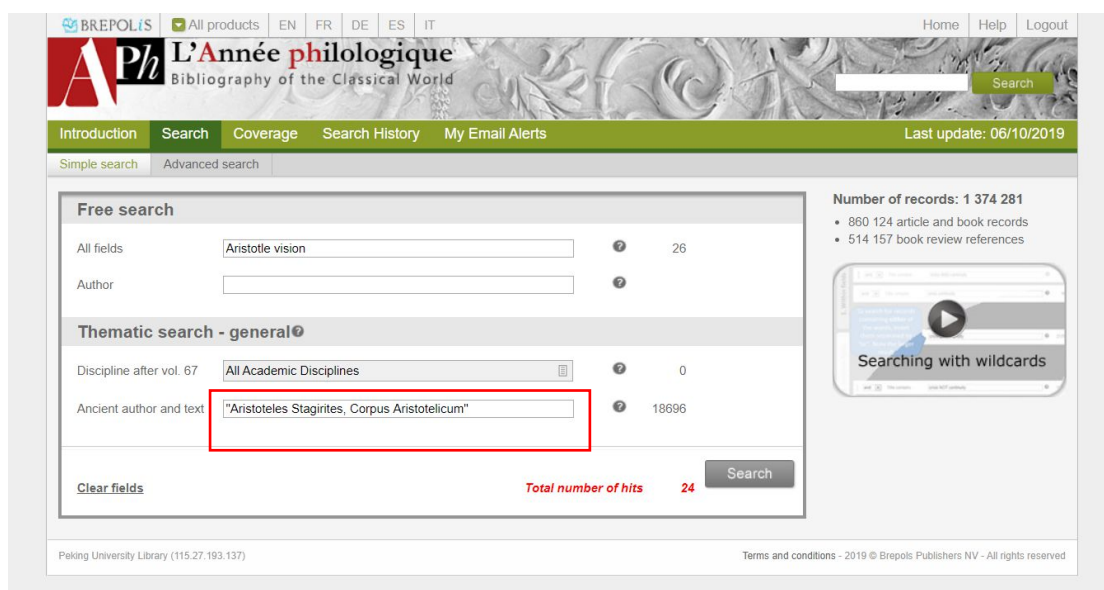

旁边的搜索结果数变为 95，说明 Aph 中一共收录了 95 篇该作者的文章。符合条件

的搜索结果总数变为 2，说明在我们需要查询的主题下 Aph 中收录了两篇该作者的文章。

其次，我们可以筛选领域。不过，这个功能似乎并不常用，甚至还有一些错误……但是我们还是可以稍作了解。在 Thematic search-general 栏下，有两个搜索栏。我们先来看第一个。首先，我们看 Discipline after vol.67 这个搜索栏。（这是什么意思呢？由于 Aph-古典学文献年鉴数据库以“年鉴”形式收录信息，vol.67 后才实行现在数据库支持的领域划分，因此我们在这里只能检索到 vol.67 之后的内容。）我们点击它。出现该搜索框。我们可以在左侧的栏目中选择我们的目标领域。如果有多个可选的领域，我们可以在上方的 Relation 选项中选择它们的关系。

我们也可以筛选古代文本。我们按照 Aph 自动弹出的搜索提示输入准确的古代文本名称后，就可以筛选出引用或者讨论和我们所要讨论的相关古代文本的文献了。

显然，利用 Thematic search-general 功能，我们也可以在没有明确搜索目标的时候浏览 Aph 中收录的文献，比如在上图中，我们可以清除 Free search-All fields 搜索栏

中输入的关键词，而只搜索 Ancient author and text 筛选条件符合“Aristoteles stagirites, Corpus Aristotlicum”的文献，结果为 18696 条。

2) 下面我们来处理搜索到的文献信息。（这里，为了让搜索结果更多一些，我们清除掉上面的筛选条件。）

The screenshot shows the L'Année philologique search results page. The search details are: All fields: Aristotle vision. The results are displayed in a table with the following columns: #, Author, Title, and Year. The first result is highlighted with a red box, and the 'view selection' button is also highlighted with a red box.

#	Author	Title	Year
1	Cheng, Wei	A battle against pain ? : Aristotle, Theophrastus and the « Physiologi » in Aspasius, On Nicomachean Ethics 156, 14-20	2017
2	Carraro, Nicola	Aristotle's embryology and Ackrill's problem	2017
3	Nightingale, Andrea	Sight and the philosophy of vision in classical Greece : Democritus, Plato and Aristotle	2016 new
4	Diamond, Eli	Aristotle's appropriation of Plato's Sun analogy in « De anima »	2014
5	Jeremiah, Edward	The development, logic, and legacy of reflexive concepts in Greek philosophy	2013
6	Corner, Sean	The politics of the parasite. 1	2013
7	Mirus, Christopher V.	Order and the determinate: the good as a metaphysical concept in Aristotle	2011-2012
8	Berryman, Sylvia Ann	« It makes no difference » : optics and natural philosophy in Late Antiquity	2012
9	Rudolph, Kelli	Democritus' perspectival theory of vision	2011
10	Sharples, Robert W.	Alexander of Aphrodisias on the nature and location of vision	2005
11	Haskins, Ekaterina Valeri Chugaeva	Ἐνδοξα, epistemological optimism, and Aristotle's rhetorical project	2004
12	Wolf, Ranael	The coloration of Aristotelian eye-jectly: a note on On dreams 459 B, 460 A	1999

我们可以如上图列表查看搜索结果。我们可以看到文献的类别（是作者之前的小图标）、作者、标题和出版年等信息。我们可以点击具体一篇文献并查看详细信息。

我们可以点击 **Result overview** 返回列表，点击 **Next** 前进到下一篇文章，点击 **Hide classification** 隐藏 **CLASSIFICATION DETAILS** 栏目下的详细信息，点击 **Export** 导出该文献信息，点击 **Refine Search** 进行更详细的查询（请见后文）。

The screenshot shows a library record page for 'Record 1 of 26'. At the top right, the 'Result overview' button is highlighted with a red box. Below the record information, the 'CLASSIFICATION DETAILS' section is highlighted with a red box, containing 'Ancient author and text' and 'Citations' lists. Below that, the 'EXTERNAL LINKS' section is also highlighted with a red box, containing two URLs. The record information includes: Type: Article in journal; Author: Cheng, Wei; Title of Article: A battle against pain ? : Aristotle, Theophrastus and the « Physiologi » in Aspasius, On Nicomachean Ethics 156, 14-20; Title of Publication: Phronesis: A Journal for Ancient Philosophy; Volume (year) pages: 62: 4 (2017) 392-416; Language: English; DOI: 10.1163/15685284-12341334; Abstract: Dans un passage de l'« Éthique à Nicomaque » (1154 a 8), Aristote attribue aux φυσιολόγοι la doctrine selon laquelle toute la vie des animaux et toutes leurs activités sont imprégnées par la fatigue et la souffrance. La citation semble surprenante, parce que cette vision contraste avec la théorie du plaisir que le Stagirite est en train d'expliquer. Pour cette raison Aspasius, dans son commentaire (156, 16-22), considèrerait ce passage comme polémique en raison d'une dispute sur la question entre Aristote et Anaxagore. Démontre que l'on ne peut pas accepter l'idée selon laquelle Théophraste aurait adopté la théorie d'Aristote dans son conflit avec Anaxagore, parce que l'argumentation qui lui est attribuée est contradictoire à la doctrine du Stagirite. Soutient également que la citation n'est pas polémique. Anaxagore ne peut pas être identifié aux φυσιολόγοι et le passage d'Aspasius n'est pas une source fiable pour reconstruire les théories d'Aristote et de Théophraste.

我们也可以选择 **View selection** 来查看各篇文章的详细信息。

The screenshot shows the same library record page as above, but with the 'Next' button highlighted in the top navigation bar. The record information is identical to the previous screenshot. The 'CLASSIFICATION DETAILS' and 'EXTERNAL LINKS' sections are visible but not highlighted. The footer of the page includes 'Peking University Library (115.27.193.137)' and 'Terms and conditions - 2019 © Brepols Publishers NV - All rights reserved'.

Record 2 of 26 To cite this record Reference: APh 88-00477 (111966)

Type: Article in journal
 Author: Carraro, Nicola
 Title of Article: Aristotle's embryology and Ackrill's problem
 Title of Publication: Phronesis: A Journal for Ancient Philosophy
 Volume (year) pages: 62: 3 (2017) 274-304
 Language: English
 DOI: 10.1163/15685284-12341328
 Abstract: Examine le « problème d'Akrill » (=> APh 44, p. 29), c'est-à-dire la tension entre la conception d'Aristote selon laquelle la matière d'un être vivant ne peut exister sans être vivante, et la vision du philosophe qui pensait que la matière d'une substance préexiste à sa génération. Refuse la théorie proposée par plusieurs savants, qui résoudrait la contradiction en affirmant que l'idée du changement substantiel ne nécessite pas que la matière instrumentaire des êtres vivants précède leur existence et qu'elle est, au contraire, sujette à la génération et à la corruption. La théorie embryologique dans la « Génération des animaux », en considérant que les êtres vivants sont générés à partir de la semence et des embryons, implique que la matière instrumentaire était déjà existante quand la forme n'était pas encore présente. Le philosophe pense qu'une substance est générée d'une matière qui est en puissance, mais refuse de croire qu'après la corruption la matière possède encore cette potentialité.

 ISSN/ISBN: 0003-6390
 Abstract: Aristotle's chapter on productive mind (De an. 3, 5) and its comparison of this mind to light are best understood as a careful revision to Plato's Sun-Good analogy from R. 6. Through a rigorous juxtaposed reading of De an. 3, 7 on vision and 3, 5 on thinking, one can see how Aristotle is almost wholeheartedly taking up Plato's analogy between vision and thought. When one accounts for all the detail of Aristotle's explanation of light and vision in 2, 7 by seeing that chapter as anticipating 3, 5, an interpretation of productive intellect emerges that reconciles the main opposing views on the question that have long divided interpreters - whether the productive intellect discussed in De an. 3, 5 is human or divine.

 EXTERNAL LINKS

- <https://www.degruyter.com/view/j/apeiron> (Home page)

以上图为例，我们可以查看这篇文献的类别、作者、标题、摘要等基本信息。并且我们可以在 CLASSIFICATION DETAILS 栏目下看到该文献对应的古代作者和文

本，以及它的引用。最后我们可以在 EXTERNAL LINKS 栏目下找到提供全文的链接。

需要注意的是，如图中 Record1 和 2，有的时候文献摘要与文献本身可能不是同一种语言。为什么会这样呢？Aph 的建设和更新工作基于来自法国、德国、意大利、西班牙、瑞士和美国的团队合作完成，因此文献的摘要语言更多与负责这篇文献的编辑部成员有关。

值得一提的是，对于书籍文献，Aph 提供非常全面书评信息。

我们可以导出条目信息。依然以上一篇文献为例。点击“To cite this record”，Aph 将自动为我们编辑符合引用格式的文本用以复制。点击 Export，我们可以将本篇文献内容导出到邮箱或下载。点击 Result Overview 返回搜索结果列表。点击 View collection 以全选所有文献，或者点击部分文献前的小方框以选中。同样，点击 Export 按照我们的需要导出到邮箱或下载。

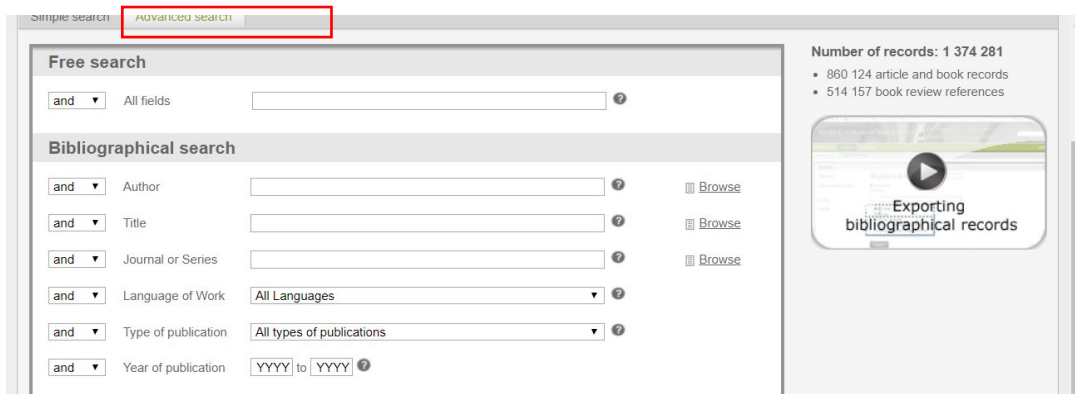

The screenshot displays the 'Export' interface on the Aph website. The page header includes 'BREPOLiS', 'All products', and language options (EN, FR, DE, ES, IT). The main header features the 'Aph' logo and 'L'Année philologique Bibliography of the Classical World'. A navigation bar contains 'Introduction', 'Search', 'Coverage', 'Search History', and 'My Email Alerts'. The 'Export' section is highlighted, showing a 'File name' field with the text '2019_10_22_00_11_22_export', a 'Select method of export' section with 'Download' selected, and an 'E-mail' field. Below these are format options: .html, .xls, .xml - Microsoft Office Word, .txt - Refworks Tagged Format, .ris - Research Information Systems Format, and Endnote Web. An 'Export' button is located at the bottom of the form. The footer includes 'Peking University Library (115.27.193.137)' and 'Terms and conditions - 2019 © Brepols Publishers NV - All rights reserved'.

在导出数据的时候，我们可以直接用 Zotero 或 Endnote 等软件。这样，我们就可以一键导出上百条目录信息，当我们需要全面、大量地处理文献的时候，这个功能非常非常方便。

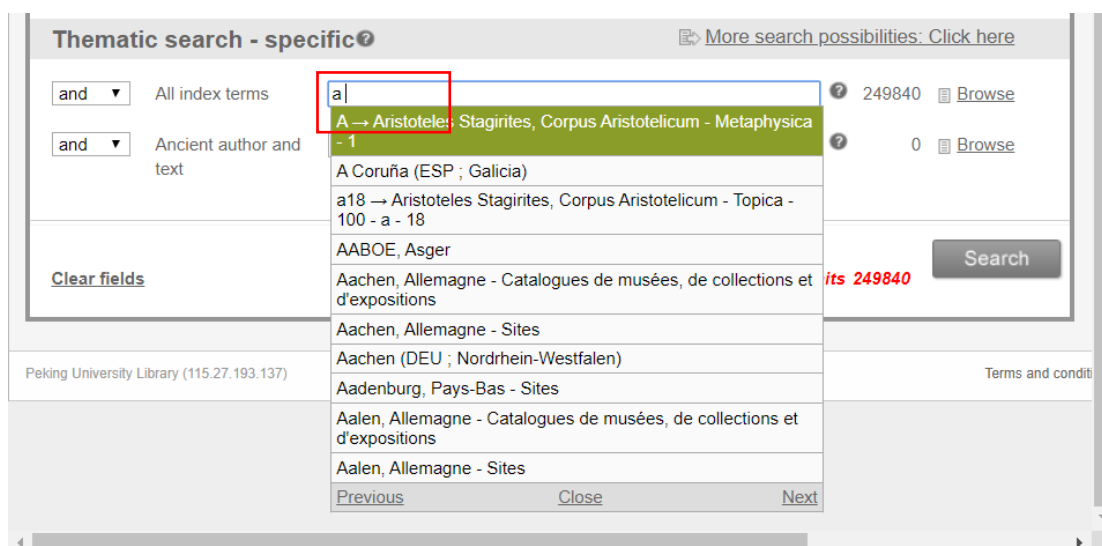

4. Advanced search 高级检索

下面我们来简单介绍高级检索功能。

首先我们点击 Simple search 旁边的 Advanced search 键进入搜索页面。

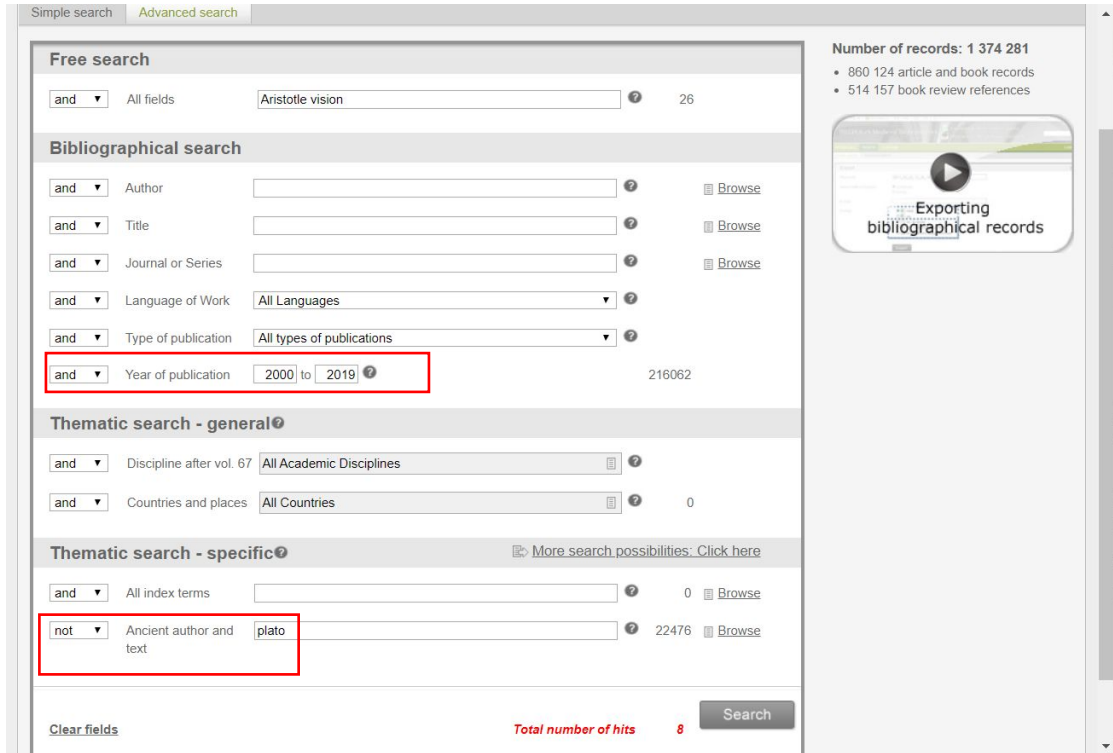

- 1) 我们首先介绍高级搜索的基本用法。我们可以在 Bibliographical search 栏目下筛选作者、标题、期刊、语言、出版物类别和出版时间。筛选方法和前面介绍的 Free search 筛选方法没有很大区别。在 Author、Title、Journal or Series 三个搜索栏旁边，有 Browse 选项可供我们选择。我们可以点击 Browse 键并浏览 APh 中收录的所有作者、标题和期刊的目录。
- 2) 我们可以用 Thematic search-general 功能浏览 APh 所收录的文献目录，并依据领域和地区进行筛选。由于 APh 是法国数据库，注意在搜索 countries and places 时，我们需要在法语的地区名中进行选择。
- 3) 我们可以用 Thematic search-specific 设置索引词和对古代文本筛选。All indexterm 搜索栏可以帮助我们输入缩略的索引词搜索内容，比如输入一个 A，APh 将自动补充收录的所有相关搜索条目。

Ancient author and text 使用方法相同。我们也可以点击栏目录的 Browse 键浏览所有条目。

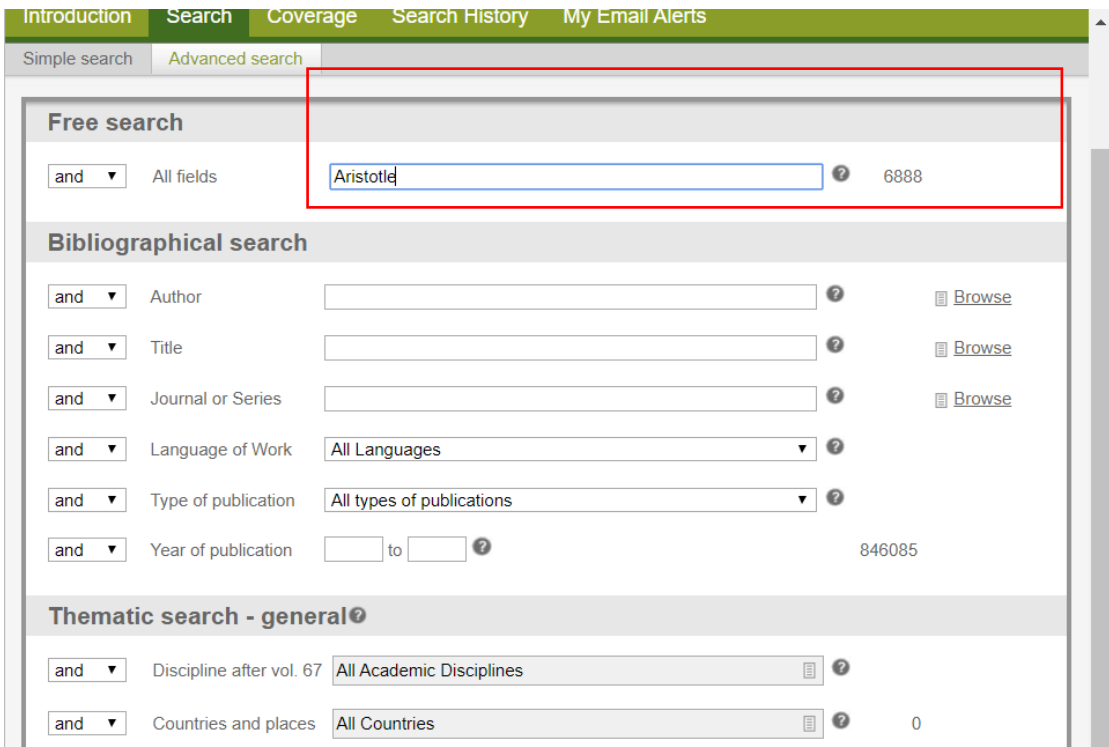

- 4) 我们可以通过更改 Advanced search 所有栏目前的逻辑选项更改不同筛选条件之间的关系。APh 提供了 And, Or 和 Not 三个选项，我们可以以此进行非常复杂的搜索。比如，我希望搜索有关 Aristotle on vision 的在 2000 年后出版的不涉及柏拉图的文献。

如图所示，有 8 篇文献符合条件。

- 在搜索（包括 free search）过程中，我们可以使用通配符 Wild cards 和布尔表达式 Boolean search 进行模糊搜索。

使用通配符时，我们用“?”表示一个搜索字符，用“*”表示多个字符。比如我们想搜索有关亚里士多德的文献，并且想要覆盖多种语言、多种写法。我们可以如下搜索：

一开始我们只输入了 Aristotle 作为索引词。我们将 Aristotle 改为 Aristot*后，结果数量从 6888 变为 21675.（这其中包含了 Aristote, Aristoteles, Aristotle 等，和其他不是亚里士多德但是也以 Aristot 开头的索引词。）

The screenshot displays a search interface with the following sections:

- Navigation:** Introduction, Search, Coverage, Search History, My Email Alerts.
- Search Options:** Simple search, Advanced search.
- Free search:** A search box containing "Aristot*" with a result count of 21675. This section is highlighted with a red box.
- Bibliographical search:** Filters for Author, Title, Journal or Series, Language of Work (All Languages), Type of publication (All types of publications), and Year of publication (846085).
- Thematic search - general:** Filters for Discipline after vol. 67 (All Academic Disciplines) and Countries and places (All Countries).
- Thematic search - specific:** Filters for All index terms and Ancient author and text.

使用布尔表达式时，我们输入“AND”，“OR”或“NOT”表达布尔关系。注意这里要大写。比如，我们想筛选涉及柏拉图的文献内容，因此在搜索栏目中输入 Aristot* NOT Plato*

The screenshot shows a search interface with a green navigation bar at the top containing 'Introduction', 'Search', 'Coverage', 'Search History', and 'My Email Alerts'. Below the navigation bar, there are two tabs: 'Simple search' and 'Advanced search'. The main search area is divided into two sections: 'Free search' and 'Bibliographical search'. In the 'Free search' section, a dropdown menu is set to 'and' and the search field is 'All fields'. The search query 'Aristot* NOT Plato*' is entered in the search box, and the result count '18249' is displayed to the right. The 'Bibliographical search' section contains several search criteria, each with a dropdown menu set to 'and' and a search box: 'Author', 'Title', 'Journal or Series', 'Language of Work' (set to 'All Languages'), and 'Type of publication' (set to 'All types of publications'). Each search box has a 'Browse' button to its right.

NOT Plato*, 出现 18249 条文献。

6. 其他功能

我们可以在 Coverage 页面内浏览 Aph 收录的所有内容。

The screenshot shows the 'Save email alert' form on the Aph website. The form is titled 'Save email alert' and includes a 'Result overview' link. The source is 'L'Année philologique'. The search details are: All fields: Aristotle vision. The form has two input fields: 'Query-name:' and 'E-mail:'. A 'Save' button is located below the input fields.

之后我们填入相应的信息后，每次 Aph 更新符合我们的搜索条件的新内容时，我们会收到一封邮件通知。

我们可以在 My Email Alerts 中查看自己所有设置邮件提醒内容的目录。我们输入在要求邮件提醒时输入的邮箱。并点击 send 键。

我们会收到相应的邮件了。如果没收到，别忘了检查一下垃圾邮件文件夹哦！

7. 更多 Aph 的用法介绍，请见

http://cpps.brepols.net/aph/manual/aph_en/pages/aph_en/rhe_1_en.html.

我们对 Aph 用法的介绍就到这里。最后，再次向大家安利这个内容详细全面、使用简便高效的数据库！它的确是古典学研究的一件利器，北大也是全国为数不多购买 Aph 数据库的研究机构之一（甚至可能是唯一一个）。因此，希望大家可以多多使用我们的资源，并且在访问数据库的时候，别忘记用北京大学图书馆的 IP 地址哦~
